1. Select the key problem with having a traditional product manager who becomes a product owner.   **1 / 1 point**

  ○ The product owner must stay focused on the budget.

  ⦿ The product owner must be able to focus on vision over operations.

  ○ The product owner must stay focused on the stakeholders rather than the team.

  ○ The product owner must be able to focus on business requirements over technical goals.

  ⊘ **Correct**
  Correct. The product owner focuses on vision. A product manager focuses on operations.

2. Select the correct statement regarding the scrum master.   **1 / 1 point**

  ○ The scrum master is a role based on the waterfall approach.

  ○ The scrum master documents impediments as project risks.

  ○ The scrum master keeps the team marching to a fixed plan.

  ⦿ The scrum master is a coach rather than a task master.

  ⊘ **Correct**
  Correct. The scrum master coaches a self-managing team.

3. Select the correct statement regarding kanban pipelines.   **1 / 1 point**

○ The sprint backlog is followed by the icebox.

○ The new issues pipeline is for storing items you will do in the next two weeks.

◉ A kanban board is made of multiple pipelines.

○ The first pipeline on a kanban board is product backlog.

⊘ **Correct**
Correct. A kanban board is made up of columns, or pipelines, such as new issues, icebox, and sprint backlog, ending with the done column.

4. What happens to sticky notes on a kanban board?   **1 / 1 point**

○ They are used as messages from one team member to another.

◉ They are moved across the board to show progress.

○ They are removed as tasks are completed.

○ They stay put until the story is finished.

⊘ **Correct**
Correct. They are moved across the board to show progress.

5. The parts of a user story are: As a _____, I need _____, so that _____.   **1 / 1 point**

○ direction, idea, outcome

○ benefit, detail, outcome

○ user, assumption, goal

◉ role, function, benefit

⊘ **Correct**
Correct. As a customer, I need some functionality, so that we will gain some business benefit. Review the Creating Good User Stories video.

6. INVEST says stories should be _____.   **1 / 1 point**

- ◯ dependent
- ◉ independent
- ◯ short
- ◯ visionary

⊘ **Correct**
   Correct. The I in INVEST stands for Independent.

7. Select the correct statement regarding product backlog.   **1 / 1 point**

- ◯ The stories at the bottom of the backlog are the most detailed.
- ◉ The product backlog is ordered by importance.
- ◯ The product backlog is ordered by which stories follow the template.
- ◯ Epic stories are automatically put first in the product backlog.

⊘ **Correct**
   Feedback: Correct. The product backlog is ordered in the importance
   and/or business value.

8. Select the correct statement regarding backlog refinement.   **1 / 1 point**

- ◉ Large, vague items are split into smaller stories and clarified.
- ◯ The team sorts the product backlog in order of importance.
- ◯ The product owner provides estimates and technical information.
- ◯ The goal is to put most of the stories in the icebox or reject them.

⊘ **Correct**
   Correct. The goal is to make sure every item is sprint ready.

9. Who has the key role at the backlog refinement meeting?   **1 / 1 point**

○ The scrum master has the key role of technical assistance.

○ The lead architect has the key role of technical assistance.

○ The development team has the key role of refining the backlog.

◉ The product owner has the key role of refining the backlog.

⊘ **Correct**
Correct. The product owner refines the backlog.

10. What is velocity in terms of sprint planning?   **1 / 1 point**

○ The speed at which every team should be able to work.

○ A measure of how quickly the team can plan a sprint.

○ Each team has a measure of how quickly they work, for comparison.

◉ The number of story points a team can complete in a single sprint.

⊘ **Correct**
Correct. Velocity is a unique measure for the team and the story points assigned for a sprint are unique to the team.
